Joanne Montana

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting by mail is the key reason I have for my residing in Beaverton, Oregon as I reach my senior years. Using a costly vehicle to exercise my right to vote or public transportation when I am far less mobile is not only an inconvenience, but I feel, a manipulation to limit our right to vote. I am opposed to in person voting being the standard and I also see it as a way to spread germs/illnesses that after suffering through Covid, I find discriminatory and dangerous. I can't help but see this as an effort to manipulate the voter results. It's criminal and dangerous.
