The current method of voting allows for the greatest participation in the democratic. I am a senior citizen and appreciate the ability to submit my ballot without the challenges of arriving at the polling place. Others do not have to juggle work and family responsibilities with their democratic duties. I have always been proud of Oregon's leadership in making the voting process accessible to all despite their age, employment or personal responsibilities. There appears to be no reason for this proposed other than limiting accessibility to the vote.
