

I do not support any attempt to eliminate voting by mail as we currently do here in Oregon. I'm 81, on dialysis 3 times a week, and like most in that condition have good days and bad. Voting by mail allows me to participate in our democratic processes WITH EASE and on my own timetable. I note that Red states with the same facility are still Red just as Blue are. This proposal is clearly all about suppressing votes, not insuring they are caste by the "right people".
