Daniel Pacha-Murawski

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

There is absolutely no security reason why we need to move to in person voting all on one day. There is no problem with the current system. Switching to in person voting on one day will do nothing but waste a lot of time standing in lines. this measure was brought on without any issue on current system. What a waste of tax money.
