Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

It is my opinion that SB210 is legislation looking for a problem. Where is any proof that mail-in voting is a problem? With many years of history there must be ample evidence leading to the creation of this bill.

We have ample proof that mail-in voting works. This method has a paper trail created by the process. This method doesn't favor one candidate or a single party, but encourages everyone to vote for the whom they want and believe in.

So, again put forth your evidence of a problem that requires us to step over a quarter of a century backwards. Until I see evidence to the contrary I will have to assume that this effort is truly to diminish overall returns, and to negatively impact those most marginalized in our society.
