Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Wow,there is hope again for a fair and legal election system in Oregon !Our current system is a National joke and also fraudulent that ballots are still being counted weeks after the election and signatures are being compared/verified? With the signature taken at the DMV using your finger or with me finger nail! Please, let's go back to what works and what most of the country is doing.
