On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: HB2583

Our family has chosen a virtual public charter school because it best fits our child's learning needs, but we are unfairly excluded from crucial Student Success Act funding. HB 2583 fixes this by providing equal access to resources while ensuring funds stay in Oregon's community-run schools. All students should have equal opportunities and access to funds from the Student Success Act.
