This is ridiculous. Oregon has had strong approval for mail in voting for many years. I have never voted in person since I turned 18, only mail in or drop off ballots. There is very, very little evidence of voter fraud. There are no grounds for banning voting that makes it accessible for most of us that cannot take time out of the day to go to a polling station. This is a move by the Trump regime to silence those that disagree with his oligarchy and ending of the American dream, way of life, and ties with our allies
