Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I would like to write you in support of SB210. I have been voting since the 70's and have never had a more distrust of our election system in Oregon than I have over the past 20 years. While I like sipping coffee and filling out my ballot I feel there has been a question of election integrity that we need to go back to one day in person voting with voter ID requirements. This would help in restoring the public trust in our system. Many of my friends won't even vote because of the lack of trust.

I would also like to mention that my son who was in deployment never did get to vote in the 2020 election because of our poor system of including our overseas military personnel.

I ask that you not only restore in person voting but also make a huge effort to clean the voter rolls.

Thank you for your attention to this matter!
