

Submitter:

Tom Sramek Jr

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Like so many other pieces of legislation that have come up in the last several years, I'm wondering what problem this legislation solves. Oregon has had mail-in voting for many years and I have heard of no problems at all with this system. No accounts of voter fraud. No problems counting ballots. No problems of any kind. This legislation seeks to outlaw this problem, free method of voting in favor of one that requires more staffing, more money, and presents more challenges for voters. I oppose this measure.
