

Submitter: Emily Nordin-Tuininga
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: SB210

Good afternoon,

In all elements of my life I require vote by mail in order to execute my civic duty of voter participation. First as an outdoors person prone to reclusiveness, second as a traveler prone to absence, third, as a busy person prone to distraction, fourth as an artist prone to concentration, fifth, as a disabled person prone to illness with limited capacity for mobility, sixth as a spiritual person otherwise engaged. Each of these elements of my life represent unique expertise, knowledge, and experience, which would go missing from public discourse if they were to be excluded. Please retain vote by mail for all citizens for all times.

Thank You,
Emily
