Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Why is this even being proposed?? Oregon is an amazing state. I love voting by mail. I get to spend hours researching things on my living room floor on one of my days off and I then fill out my ballot before walking or driving it to a drop box. This is an incredible service. Making people stand in long lines, sometimes for HOURS, and voting on ONE day ~ which isn't even made a federal holiday so people have to get time off work ~ is so ridiculous. People need time to think, to research, and to vote on the day that makes sense for them and their work schedule. Do not remove our fabulous mail-in voting system. It's worked for decades. Don't fix what ain't broke, people. It's simple and common sense.
