I cannot believe that this question is being considered. There is no reason to make voting in-person only and many reasons to keep it mail-in. No one has ever demonstrated that there is voter fraud in Oregon - if it exists then make it public knowledge and then consider this question.

My wife and I always vote! Every election, big or small. Mailing our ballots is a great joy for us - being good citizens in this simple way that is easy. We are elderly now and, especially for my wife, getting out is not easy. Do not change how Oregonians vote.
