Vote by mail is a much more efficient and calm way to vote. One can read all pamphlets and make an intelligent, unrushed and informed decision. One does not have to miss work. The elderly do not have to drive out in the storms and rain to unknown destinations in order to vote. Schools do not have to be disrupted every voting day. The votes are authenticated with the voters signature. We love vote by mail. Please do not change it. It's truly wonderful.
