Submitter: Shawn Pickle

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Mail in ballot voting is the most secure voting system. It allows all people eligible to vote without having to drive long distances, easier for those who work, no waiting in long lines. It's much easier for the poor and disabled. Signatures are verified before the votes are tallied. Here in Oregon we've had the safest elections and have had very low cases of fraud. It is safe, reliable and easy for ALL.
