This bill is flagrant disenfranchisement, plain and simple. It is an inexcusable attack on American democracy, and the fact that it's even being brought to the floor is deeply disturbing.

For decades, Oregon has held some of the best elections in the country: very high turnout, very low cost, almost no chicanery.

We must continue to lead by example, and NOT let the federal-level fascists and the states that don't value justice drag us down with them!
