Committee: Senate Committee On Rules
Measure, Appointment or Topic: SB210

Why take a step back in time and have everyone go to an in-person voting system?

Mail in voting is the best way to vote.

Where is any proof that the current system of mail-in voting is not the best system?

Don't submit to the propaganda that is present in politics today.

I am a republican and I 100% support mail-in voting!
