Committee: Senate Committee On Rules
Measure, Appointment or Topic: SB210
Regarding SB 210

I support in person voting. We have lost trust in our voting system in the US.

Fraud is so easy with these mail in ballots. I have 5 people that live at my residence and receive their mail here. Some don't care about voting and if I wanted to be fraudulent I could easily vote for them! There are no checks and balances to stop voter fraud when paperwork to vote is sent via the mail.

Those that want to vote, will gladly vote in person to help eliminate fraud.

I appreciate that this measure provides mail in ballots for disabled or those that cannot vote in person.
