Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose SB 210 on the grounds that it is entirely unnecessary. Without overwhelming evidence of fraud under the current system, this bill seeks to divide our community and limit access for marginalized citizens, our elderly and disabled members among them. Oregon has a long history of success under our current mail-in system. Let's not spend time on a divisive measure such as this when we can be proud of a system that has served the citizens of Oregon well for 25 years.
