Measure, Appointment or Topic:

SB210

This would be a step backwards for voting in Oregon. People with mobility issues and other disabilities would be less likely to vote. People with full time jobs would face financial loss and be less likely to vote. Immigrants and anyone for whom English is a second language would be less likely to vote. Stay at home parents with pre-school-age children would be less likely to vote. People caring for a family member would be less likely to vote. Elders would be less likely to vote. Vote by mail increases voter participation: in my opinion this measure is an attempt at voter suppression in Oregon and I vehemently oppose it.
