

Submitter: Tara Estelle

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

As a resident of Oregon, I find it safe to say that a majority of residents here do not have the desire to ban mail-in voting, and most certainly not early voting. We've had mail-in voting for decades without any significant issues. Mail-in voting and early voting make it so that working-class, disabled, and marginalized people can participate in the civic duty of voting in elections.

Without such options, many people will struggle to participate in elections, with many missing out all together. SB 210 doesn't do any good by the people of Oregon, or the United States of America. It will only make our lives harder. Say NO to SB 210.
