This is my written testimony for **SB 210**....

I do not approve of changing the rules for Mail-in Ballot. We (Oregon) helped to instigate this voting method and it's worked fine for many years with no evidence of fraud. It allows many people who are less able to vote through the mail because of mobility issues¹ The more people who can demonstrate their choices through mail-in ballot, .the better for our country to declare our preference, legally.

Thank you for this opportunity!

Martha Snyder,

Eugene, OR
