Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB210

Voting by mail has been very successful in Oregon with voter turnout consistently ranking in or near the top 10% of states nationwide, and Oregon elections by mail have been fair and well-protected against fraud (contrary to lies spread by the Trump administration). Requiring voters to vote in person on election day would penalize working individuals who might not be able to take the time off of work to vote; also individuals with limited mobility or who otherwise would have difficulty accessing a polling site. This bill is simply a dishonest ploy by the MAGA movement to subvert the democratic process and needs to be called out as such. Defend our democracy!
