Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Equity in access is a key hallmark of democracy. I am disabled, and mostly homebound. The ability provided to me by mail in voting to have them opportunity to research candidates, fill out my ballot at my leisure, and return it either in personal or by mail is an important issues of access to me.

This method of access is important for thousands of Oregonians.

The only reason some people want to change it now is to disenfranchise voters like me.

Please preserve the rights of access to the democratic process for ALL Oregon voters, not just the able bodied.
