Measure, Appointment or Topic: SB210

I vigorously oppose the destruction of the time-tested voting by mail that we have in Oregon for ALL residents. I have lived in five other states and we are among the best for voter engagement by our vote by mail. I urge our Oregon legislators to also vigorously oppose this effort to obstruct voters -- but especially those that depend on vote by mail by reason of work schedules, disability, infirmity, unscheduled absence or any other reason. And if necessary, I strongly urge our State to litigate in the courts our right to retain full vote by mail.
