

Submitter: Jessica Antonellis-John

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Voting by mail increases access for all voters and has been an effective model for elections everywhere. Our votes are secure, and voters do not need to potentially endanger themselves or their employment to vote in person on a single weekday. Poll workers are safer, and voters have time to research and consider before casting their votes. There is no reason to interfere with this process, as it currently works as intended.
