Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Nobody gets a day off to vote, much less paid! Taking time out of a working person's day is exactly what should not happen! Voting should be easier for everyone to engage if they are interested. We should not be making it more difficult. This should be obvious and the fact that this bill is being proposed, whoever is in support of this should be embarrassed of themselves. Get a grip. Voting should be easier not harder. Thanks for taking time away from my day to have to submit feedback on a ridiculous proposal.
