

Subject: SB210

Date: March 30, 2025

To Whom It May Concern,

I am opposed to SB210 for the following reasons:

- 1) This discriminates against senior citizens who no longer drive and do not have individuals who can drive them to a voting booth to vote in person;
- 2) This discriminates adult family members that both work and have not the time or cannot afford to hire someone to babysit their children after school to go vote in person/s;
- 3) This discriminates against citizens that have no easy access/public transport to reach a polling booth to vote in person; and
- 4) This discriminates against citizens who work 12-hour shifts and are not allowed time off to vote in person.
