

Submitter:

Christine Chenoweth

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon has a long history of successful mail in ballots. Vote by mail allows more people to participate than in person voting. Our democracy needs to have participation from as many people to work at it's best. People who are unable to get to the polls physically due to mobility, transportation, and time constraints are able to participate in our democratic process with mail in ballots, which is imperative for the strength of our democracy. Please, please oppose this bill!
