

Submitter:

DAVID PINYERD

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Having lived in Oregon before mail-in voting and in other parts of the country, I know personally how hard it can be to access the polls during an election when one works full-time or has other serious obligations. I believe that voting by mail should be the standard practice nationwide and eliminating the practice can be viewed as voter suppression. Please do not give in to the administration's attempts to separate Oregonians from their democratic voice.
