

Submitter:

Claudia Wark

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

It has been proven numerous times that voting by mail is secure and efficient. It allows voters to choose a time that works for their schedule. It also allows citizens who might not be mobile to cast their ballots. It works well, there is no reason to make a change that takes us backward. I have always been proud of Oregon's leadership in this matter and want it continue.

Therefore, I oppose any change in Oregon's voting requirements.
