Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Getting rid of vote by mail will hurt ALL voters in Oregon, whether they are Republican, Democrat, or Independant. Most voters do not have the day off during elections, so we will get less turnout for important votes, and less accurate outlook on community opinion. Our smaller communities will also have an extra hard time voting if there are not enough polling places around the state, thus leading to less accurate representation and say in the matters that will impact them the most.
