

Submitter: Gretchen Brauer-Rieke

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

To the Senate Committee considering SB 210 - I strongly oppose changing Oregon's vote-by-mail system, which has worked for Oregon voters for over 26 years. Without evidence of fraud or malfeasance, there is NO REASON to force people back to the polls to vote in-person. It just makes voting more difficult, especially for those who can't get off work, those with mobility issues, the elderly who struggle with transportation, and all kinds of people that have every legal right to cast a ballot. This is clearly an attempt to make voting more difficult for us. Please, please - do not destroy our vote-by-mail system, the envy of so many residents of other states!!
