

Submitter: Janice Reid

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Oregon has had vote by mail for over 25 years and it works for all. Vote participation is higher because working people and people with families or other obligations can vote when it is convenient. The system works, is cost effective, and makes sense. In person voting after we have all become well versed in the process and enjoy the convenience and SAFETY of their home would be a step backward. I strongly oppose any attempt to take us back to where voting becomes a hardship for hard working families in Oregon. We should be encouraging all states to vote by mail not the other way around.
