Measure, Appointment or Topic:

SB210

This proposed measure is clearly intended to reduce voting access of working class, low-income, and minority Oregonians. Oregon's existing vote-by-mail process is established, reputable, and secure and allows Oregonians equitable access to elections irrespective of working hours and childcare access and does not subject Oregonians to onerous identification requirements that have been demonstrated in other states to reduce voting access for low-income and minority citizens. Oregon's legislature has too many real problems to work on this session, it does not need to waste taxpayer resources or their legislators precious time debating a blatantly racist and classist measure that would only serve to damage regular Oregonians's rights. Please let this bill die the death it should have died in countless prior legislative bodies, let it be nothing more than a footnote of this session, and let it be rightly called out as the regressive fodder of the white-supremacist-sympathizing far-right that it is.
