Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I STRONGLY oppose any requirement for in-person voting. Why would we go backwards? Our turnout rate is better than places with in-person voting. Too many people do NOT have easy access to voting locations, the ability to travel to these locations, or the time available from other duties, work and family obligations. Rural areas like mine are especially endangered by this bill. Please vote NO.
