SB210

Since adopting vote-by-mail, Oregon consistently ranks as a national leader in voter turnout and security. We are in the top 10 states in the nation in terms of voter turnout. I strongly oppose a return to in-person voting. I believe efforts to overturn vote-by-mail will result in voter suppression. It will particularly impact the working class (who may have trouble getting time off to wait in line and vote), people with disabilities and the elderly. I also find it suspicious that this bill coincides with comments Elon Musk made about potentially tampering with electronic voting machines. This is my 40th year voting in the state and I am confident in our current system.
