Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

We currently have an election system that in my opinion, works securely and efficiently for everyone. By changing to this proposed system which is much more limited, this creates a hardship for many citizens that need the current and more flexible options to exercise their right to vote.

"If it ain't broke, don't fix it!"

We need to stop wasting time coming up with ways to make "daily life" more confusing and difficult for the American people.

This proposal represents another sad day for all hard-working citizens of OUR country!! Let's start working FOR our people and not AGAINST them!!
