

Submitter: David Taylor

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I strongly oppose this measure because our current vote by mail system is both secure and convenient. The signature checks are robust and effective. It also results in higher turnout than in states that don't have the option. Any instances of fraud are VERY few and no more than would occur with election day voting. Please do NOT change our current vote by mail system.
