Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I like how Oregon's voting system is so accessible. Automatically getting your ballot and being able to vote at leisure from home. Able to have conversations and consider. Access for seniors, disabled, rural, low-income, not to mention folks who have to work (speaking of which, why ISN'T Election Day a national holiday?). This bill would take votes away from ALL of those groups and likely make even some number of mobile voters stop voting because it wouldn't be convenient. Gross. The whole power grab is gross.
