Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Where did this hare-brained idea come from? Oregon has had voting by mail for as long as I can remember, and there has never been a problem with it. It is only since Trump created his conspiracy theory over this phony issue that his sycophants have elevated it to debate in State legislature. Shame on you for drinking the Kool-Aid. Our democracy is in its dying trajectory and you're hastening its death.
