

Submitter: Alysa Wood

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Vote NO on requiring in-person voting. Mail-in voting is one of the best things about living in Oregon! As a busy working mother, it allows me to do my civic duty and vote while researching the candidates and measures and also still attending to my responsibilities at my workplace and to my family. There are so many stressors in our lives, let voting at home, submitting by mail or drop-off location (I use my local library or the drive-through box by McDonald's), help us be present for our community and our state while also being present for everything else in life that requires our attention. Do not take away this wonderful right that we have now and has been working so well for years!
