

Submitter:

Jay Logan-Malcolm

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This measure would make it so that disabled folks, folks in rural areas with limited transportation, working folks who can't get the day off of work, and many other people would unfairly lose their right to vote. ID should be required when registering to vote and the ballot signature matched to the voters registration. Taking away mail in votes is voter suppression.
