Senate Committee members,

As a naturalized citizen, one reason I became a citizen was so I could vote. Voting by mail has made the voting procedure very accessible and easy. I can consult my Voter Pamphlet Guide at my leisure and decide in the comfort of my home who to vote for without being pressured. I don't have to take a list into the voting booth and then worry about someone waiting to get in behind me. Why are you even considering to do away with "Voting By Mail?" Because POTUS 47 wants to do away with it?

NO, NO, NO. A thousand times NO.
