

Submitter: Rebecca Anderson
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: SB210
SB 210 I OPPOSE!

March 30, 2025

Rebecca Anderson
Grants Pass, Oregon

To whom it may concern:

Government is meant to SERVE. Good governance is improving the lives of citizens. One way to do that is through Vote by Mail. It is a wonderful service to the residents of Oregon, many of whom live in rural areas, some have disabilities or other challenges to vote in person.

Does this make citizens safer?

Does this improve citizens' quality of life?

Do the actions of leaders improve economic conditions?

Are the leaders acting with transparency, accountability and integrity?

One must wonder at the motivation to pass such a bill that will make life harder, more costly and inconvenient for voters. The goal of government should be to make voting EASIER for registered voters.

These are the standards that should be respected in any action leaders take!

This method of voting is secure, safe and convenient. Why on God's green earth, would state leadership want to end such a popular and productive program?

I STRONGLY urge opposition to the destructive bill that would take away rights, not enhance them.

Please consider the will of the voters!
