Having worked with the Registrar of Voters for 30 years in So California, I support mail in voting.

Every year during the upcoming election, finding volunteers to work that long and exhausting day became a challenge. Mostly only retired volunteers

Each election brought out the crazies...those wanting to disrupt the volunteers, some standing outside the locations in violation of the laws of voting rights.

We all know that Jan 6th was just a visitation gone wrong (sarcasm), when volunteers are harassed by deranged citizens who have no value for the rights of all voters, please understand that filling out my voters ballot in the privacy of my own home and mailing it in a secure location is the safest and most honest was to vote.

It would behoove all states to put mail in voting as the option for all voters. It is safe, avoids the cheating we have witnessed, and will avoid money people from paying people to cheat.

One ballot per person, verified by state identification.

Stop the cheating and stealing of votes.

Our democracy works in Oregon and it can work in your state.
