

Submitter:

Tami Bare Hughes

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As a lifelong Oregonian, I highly oppose this change. I am very proud of Oregon leading the country in mail in ballots. It assists making voting accessible to a wider range of voters, allowing people to drop off ballots before the election date, take time to read the voters pamphlet, do research, and not have to worry about their workday and not having time to vote. Voting by mail helps families who have children in activities that may occur on election day. It helps those work work and commute long days and cannot take the time off to go to the polls. Assists for people who may be traveling or out of town on election day be able to mail in their ballot to make sure their voice is heard. Please consider all voices in Oregon and keep our election system fair for everyone. Thank you.
