To Whom It May Concern,

This so-called fix to our election system, is a waste of our time and money. My Dad is a disabled retired Veteran. Requiring him to show up at the poles and wait in line is a hardship. This would be a hardship for any disabled or rural resident living far from a poll station. Maybe the supporters of this bill don't work for a living, but those of us who do, greatly appreciate Oregon's freedom to vote by mail. A freedom this bill would be taking away from us for no proven reason.

SB 210 is like suggesting a fix when nothing is broken. There is no evidence to support this bill. Stop wasting everyone's time with Conspiracy theories.
