Against SB210

Do not make in person voting the standard in Oregon.

Vote by mail has allowed many seniors and handicapped people to vote from home where transport and assistive communication devices are not needed.

I speak on behalf of my sister who is a highly intelligent registered voter, but is legally blind and legally deaf. She does not drive and uses special devices for hearing and sight assistance.

Please keep vote by mail for available for everyone! It has greatly increased voter participation in Oregon.
