Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This is a bill that would inhibit senior citizens like myself and husband.

And here in the Oregon Coast, getting to a voting LOCATION if the weather is bad.

Our roads and slides could make it a RISK to there.

I know BROCK, and it's just possible he sees this as a Road to a job created for him

In Trump's Administration.

Why change a system that

Encourages Voting? My husband and I will be 75 years old this year.

Think how many OLDER CITIZENS would

have to rely on others to get to a Voting location.

This is a bill Meant To Eliminate the Voices of Many People.

Sincerely, Laurel Newman
